

Trail Etiquette

RESPECT FOR RESIDENTS AND LANDOWNERS
 Many of the trails shown here lie on private land. Respect private property and obey all signs.
 Do not disturb livestock. Leash dogs when crossing fields with livestock. Leave gates as you found them.

RESPECT FOR OTHER USERS
 You will encounter other recreational users on these trails. Activities which take place in the area include hiking, cycling, trail running, horse-riding, cross-country skiing, paragliding, canoeing, fishing, and hunting. Please respect all users.

Motor vehicles are restricted to public access roads only. Off-road motor vehicles are NOT ALLOWED on trails within the Mosquito Lake Recreation Site, and are NOT ALLOWED on trails within the Village. Motorized use is NOT RECOMMENDED on any trails shown on this map.

On trails, cyclists must yield to all others. This means slowing to a walk or stopping. All users must yield to horses. When approaching a horse, use your voice to make your approach known well in advance. Dogs must be under control at all times.

The area extending west of Reid Road and Ivey Road as far as the Lillooet River is part of the Wolverine-Mackenzie Deer Management Zone. Migration routes for deer lie within the area, and so forestry activity has been restricted to protect the population. Deer hunting season is from the beginning of September to the end of November. During this period hunters are likely to be using the Mackenzie Basin area. For other animals, you may encounter hunters at any time of the year.

The immediate area around the Village of Pemberton and extending south as far as Nairn Falls is open to hunting with shotguns only.

RESPECT FOR THE NATURAL ENVIRONMENT

Tread lightly, and stay on the established trail—no cutting corners. Do not modify or build trails without permission—contact the PVRTA. Avoid using trails which are subject to erosion, especially in spring or after heavy rains. Do not go around boggy sections of trail, but wade right through to avoid widening the trail. Cyclists should avoid skidding—

ride don't slide! Cyclists and horse riders should avoid steep, loose terrain.

LEAVE NO TRACE! Try to pack out even more than you pack in. Participate in annual trail clean-up and maintenance days.

You may encounter bears, deer, cougars, as well as smaller wildlife while enjoying the trails. These animals should be avoided and must not be disturbed if at all possible. In particular, dogs must be under control at all times. This means within your view and obedient to your commands! It is an offence to allow a dog to disturb wildlife. In addition, a dog may attract the attention of a large wild animal on you!

Consider yourself lucky if you have the chance to see a large mammal in the wild. Most animals will avoid you as soon as they hear you. If they do not, keep in mind the following:
BEARS: Be alert in the trails to avoid surprising a bear. If you do encounter one on the trail, turn around and find an alternative route. Beware of territorial or maternal behaviour which could result in a confrontation. If a bear does confront you, stay calm and back away slowly.
COUGARS: If confronted by a cougar, do not panic and do not turn your back. Make a lot of noise, look large, and back away slowly. If attacked, fight for your life!
 Do not disturb fish-bearing streams. Keep dogs out of these streams.

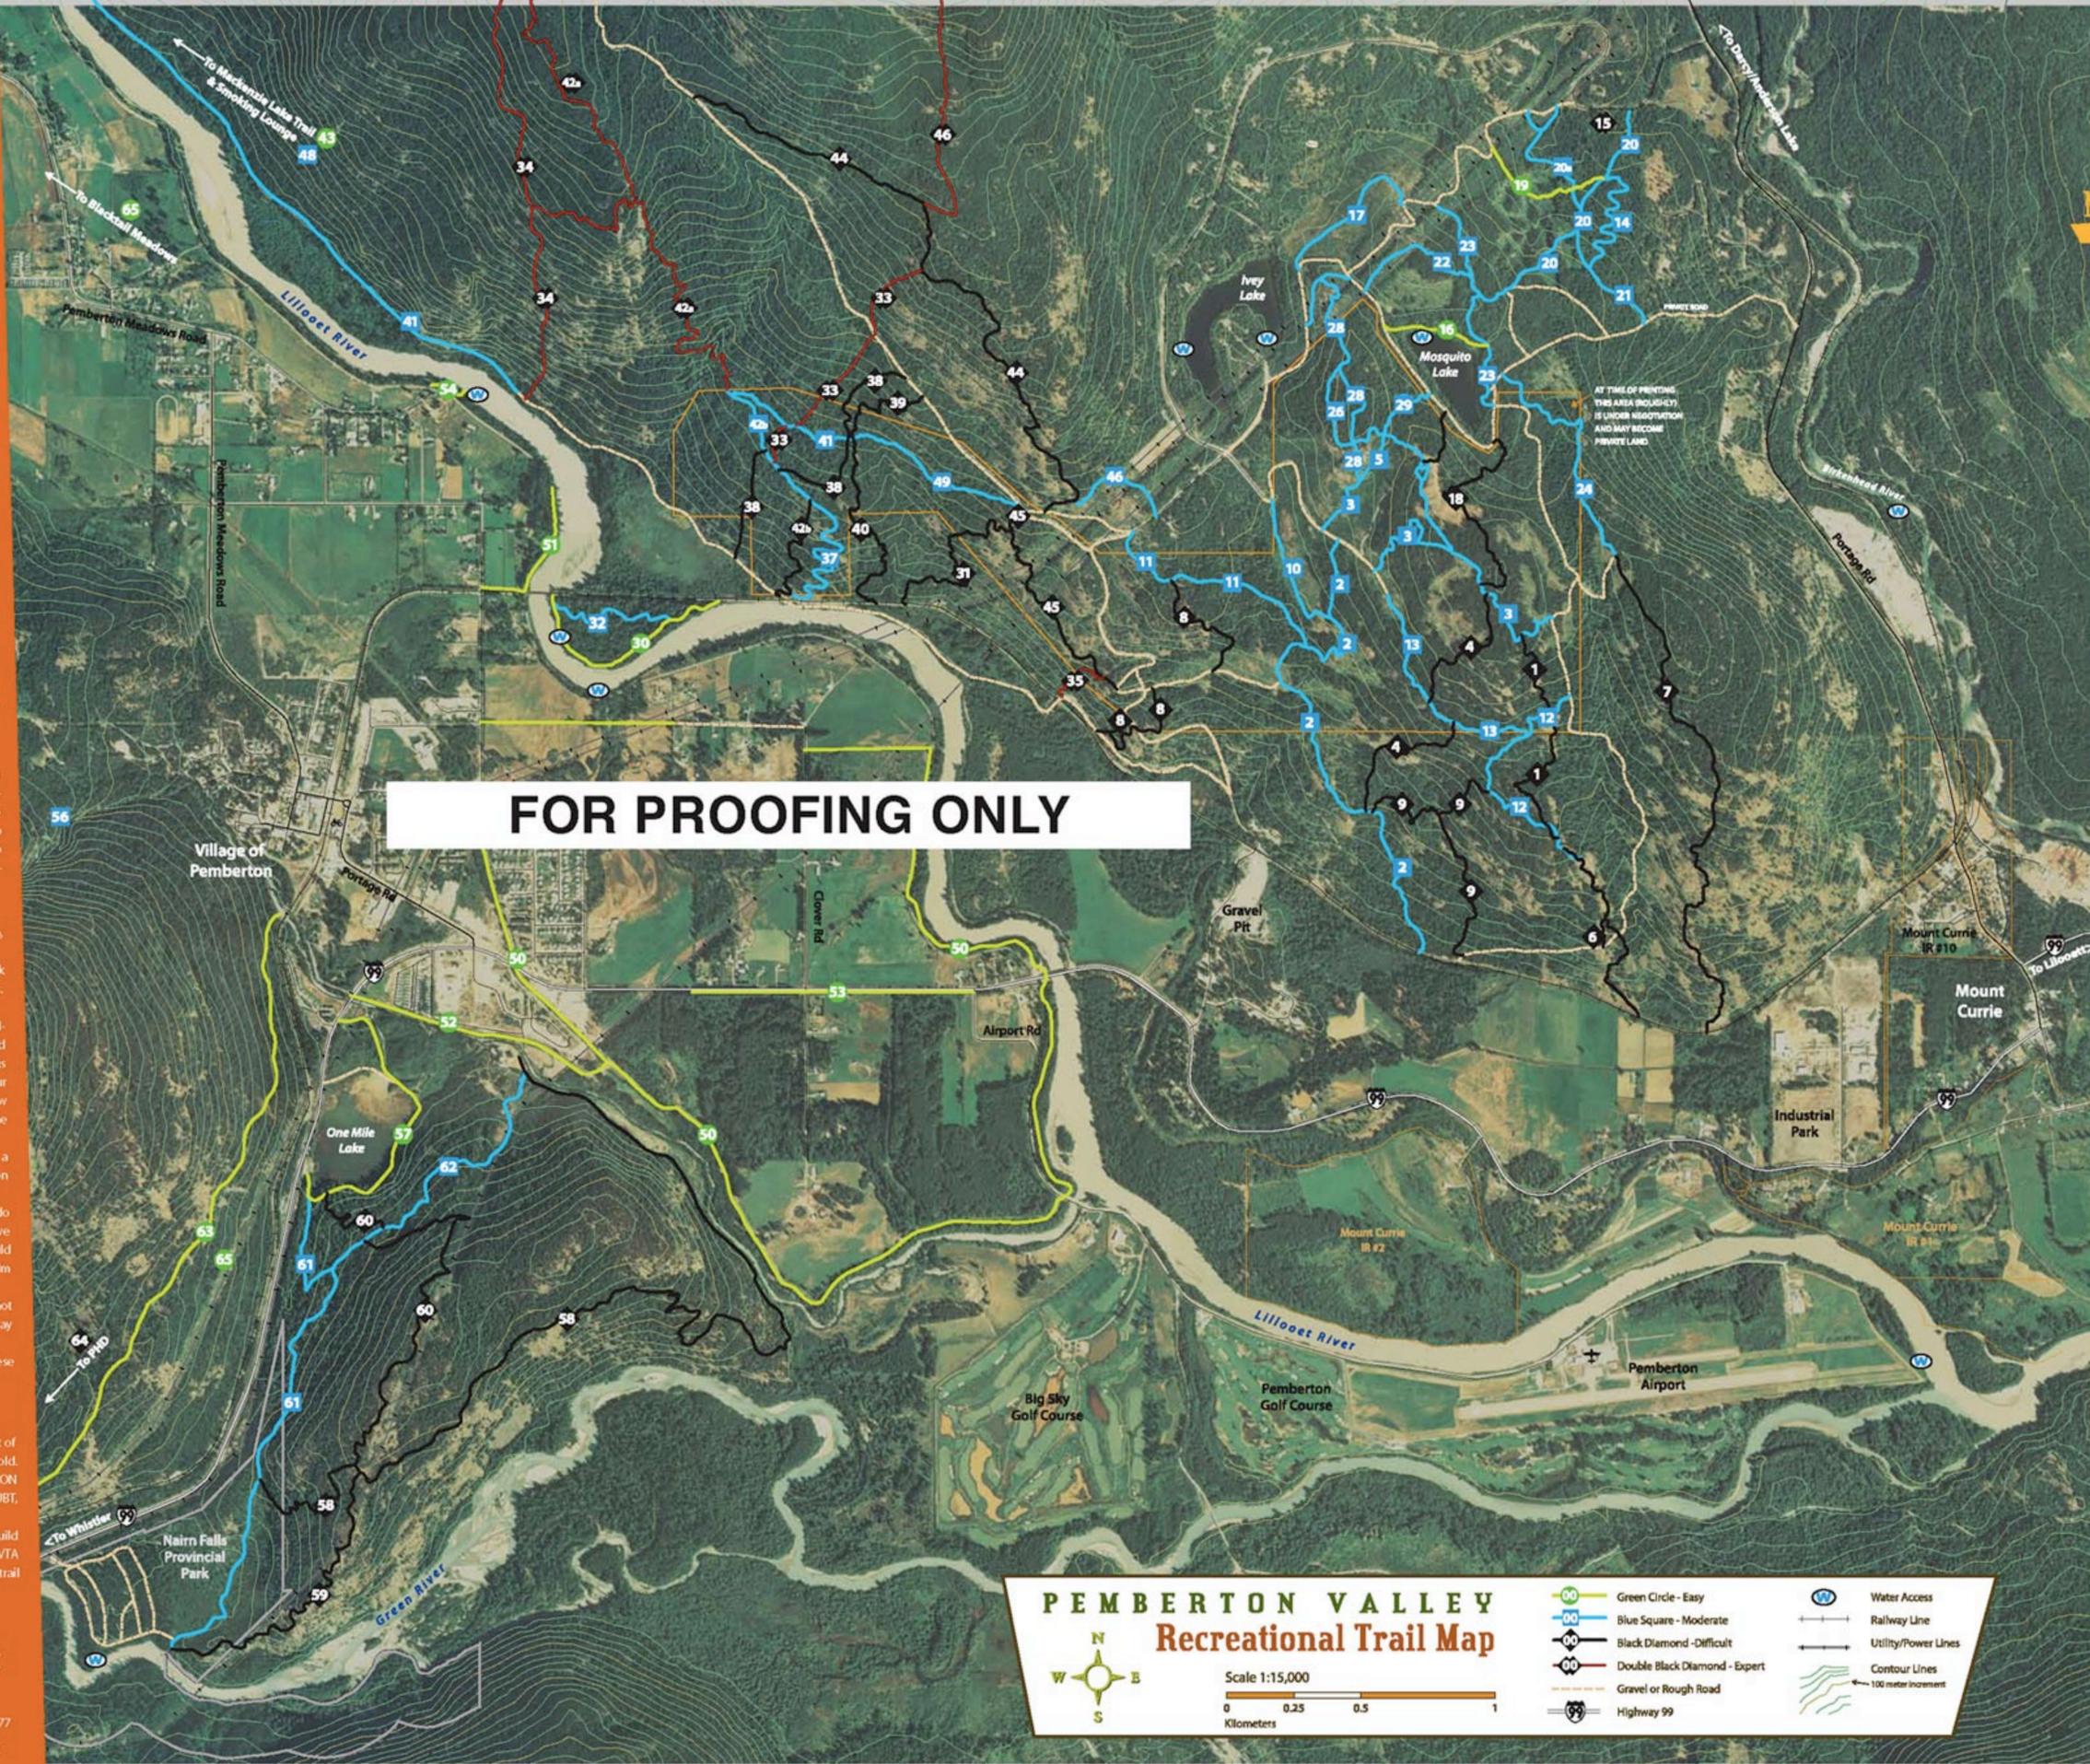

LEGAL

The representation of a trail on this map does not imply right of access. Things change, trails may close, land is bought and sold. PORTIONS OF TRAILS REPRESENTED ON THIS MAP MAY LIE ON PRIVATE PROPERTY. PLEASE OBEY ALL SIGNS, AND, IF IN DOUBT, INQUIRE LOCALLY WHETHER A TRAIL IS OPEN.

It is an offence under the Forest Practices Code to build an unauthorized trail on Crown land. Please contact the PVRTA if you have suggestions for a trail or would like to help in trail maintenance.
